INDOOR COLLECTION

The indoor furniture consists of two parts; an inner beanbag and a removable cover. The outer cover comes in three different fabric varieties. In the catalogue, you can see which models come in which fabrics. The idea of dividing the product into FILLING + INNER BAG + OUTER COVER is to make the product more long-lasting, as the outer cover can easily be replaced or washed as needed. All materials can thus be recycled or repaired independently of each other. In addition, the inner beanbag can also be refilled if it becomes flat over time or you can reuse the filling for another product.

If possible we only use materials produced in Europe, as we want to support our “local” environment and workplaces even if the cost is generally higher. We also want to minimize the transport of our goods and thus reduce the CO2 footprint, which is why we also have production and storage facilities together.

GENERAL CLEANING INSTRUCTIONS

Sunbrella Plus® & Sunbrella In&Out

- First brush off loose dirt.
- Hose down fabric thoroughly. Water should be cold to lukewarm and never more than 100°F/38°C.
- Prepare a cleaning solution of water and mild soap (No detergents).
- Use a soft bristle brush to clean. Allow cleaning solution to soak into the fabric.
- Be sure to rinse thoroughly to remove all soap residue.
- Allow Sunbrella to air dry only. Never apply heat to Sunbrella fabrics.

DEEP OR STUBBORN STAIN CLEANING

Sunbrella Plus®

If stubborn stains or mildew persist, you can use a diluted chlorine bleach/soap mixture for spot cleaning. Protect the area around the Sunbrella fabric when using a bleach solution – bleach may discolor non-Sunbrella fabrics. Always rinse Sunbrella thoroughly to completely remove bleach.

HAND WASH: Mix 100 ml chlorine bleach with 50 ml of mild soap and one 4 l of water. Clean with a soft bristle brush. Allow mixture to soak into the fabric for up to 15 minutes. Rinse thoroughly until all soap residue is removed. Allow to air dry. Repeat if necessary.
